

2-1-1 Phone Directory - Region Wide

Updated January 6, 2020

1.1 Originator

Region sections including Project Development (PDS), Systems Planning and Operations (SPO) - Planning & Operations, and Technical Services Section (TSS)

1.2 Introduction

This section was created to provide access to the region phone directory. Information provided includes employee name, work unit, and which office they are assigned; office phone number(s); cell number (if applicable); location of assigned work space (POD # or Room #) and direct line supervisor.

1.3 Process

The region phone directory file listed below and is reviewed and updated frequently. If you notice an error, please notify the contact person listed in the "Reference" Section below.

2-1-5 PDS - Contact Information

Updated December 21, 2021

5.1 Originator

Project Development Section (PDS)

5.2 Introduction

This section was created to provide access to the regional **contact information of PDS staff**. If you notice an error in any of the files, please notify the contact person listed in the "References" section below.

5.3 Process

[Phone Directory - PDS - Construction Project Staff](#)

Lists estimated begin date, project ID, county, highway, project limits, phone numbers of WisDOT project staff including project supervisor, project manager and project leader, phone numbers for prime and traffic control contractors. The phone directory is created for all region projects before each construction season and updated as needed.

[Highway Improvement Program Map](#)

Shows the map of all current and planned Wisconsin transportation improvement projects. Clicking on the colored linkwork within the map, will reveal project information such as construction ID, work type, route, project limits, and cost range. This map, along with other references, can be found on the [WisDOT Maps Portal](#).

[PDS - Geographic Assignments](#)

Includes the contact information of the WisDOT supervisor and WisDOT project managers listed by the general geographical boundaries. The geographic assignments map is updated as needed.

[PS&E Coordinator Assignments](#)

Shows which county each region PS&E Coordinator is assigned, along with their contact information.
